When I saw Paragould I figured that certainly you had to have been to George Ray's. And now you tell me that you basically cut your teeth there! Wow.

Welcome to the site! I am glad you found us!

---

that was monstercarlo on here that broke the axle. if you still have the videos of me running at gr's you should post a couple. i try to explain how bad out of shape it was getting, but i think video would drive it home. nothing like hand over hand driving at 100mph. :)

Glad to have more G-bodies on here. Welcome man. You should come up to OIR next Midnight Drags. It's a hoot and these guys on here are great to hang with at the track. They'll help you anyway they can too.
