
Went to the track in Texas !!!

Posted by Super six - 2010/02/04 16:52

I know its been a while but... I got to go home this Christmas and took my grand prix to the track down there. Cause it doesn't snow there and the track is open year round! Here is how I did.

60ft 1.975

1/8 8.852

1/4 13.821

This is actually my new best... it beat my previous best by .001 sec. lol The only change was a muffler delete. And it sounds awesome if you are wondering.

Congrats on the new best!

and I'm a little jealous that you went to a place that doesn't get snow ;-)
